

# FACE 2 FACE

Face2Face has offered anti-ageing solutions in Milton Keynes for over 8 years - longer than any other anti-ageing clinic in the region! Julie Robinson is managing director of Face2Face and has been a beauty professional since 1977. As a 'woman of a certain age' much of her advice is based on her own experiences.

The clinic is based at the The Old Courthouse in Fenny Stratford and has its own parking facilities at the rear of the building. Complete privacy is assured and peace and quiet can be enjoyed in this delightful – airy old building.

Face2Face offer a free consultation during which your skin will be expertly assessed and a solution, based on budget and time available will be formulated. There is a qualified medical practitioner to provide injectable treatments should this be required

Women today (and increasingly men) are often baffled and misled by marketing hype and perceived effectiveness of more expensive treatments and products. Our aim at Face2Face is to simplify the process of holding back the years and in most cases achieve a significant improvement.

Straightforward explanation of the ageing process with solutions that don't cost the earth or hours away from busy lives, are what our clients demand.

Honesty is key to the relationship built between a professional and client and this is the only long term view adopted at Face2Face.

In the unlikely event we can't help we will tell you who can!!
